## How free radicals function

- Free radicals are constantly being formed in your body.
- Without antioxidants, free radicals would cause serious harm very quickly, eventually resulting in death.
- However, free radicals also serve important functions that are essential for health<sup>1</sup>
- For example, your immune cells use free radicals to fight infections<sup>2</sup>.
- As a result, your body needs to maintain a certain balance of free radicals and antioxidants.

## Immunity Booster

- When free radicals outnumber antioxidants, it can lead to a state called oxidative stress.
- Prolonged oxidative stress can damage your DNA and other important molecules in your body. Sometimes it even leads to cell death.
- Damage to your DNA increases your risk of cancer, and some scientists have theorized that it plays a pivotal role in the aging process<sup>3,4</sup>.
- Several lifestyle, stress, and environmental factors are known to promote excessive free radical formation and oxidative stress, including:

## Immunity Booster

- Now the question which can arise is how one can know the right quantity of Antioxidants in our daily diet? The answer is **Oxygen Radical Absorbance Capacity (ORAC)** of an Antioxidant.
- The power and strength of an Antioxidant product is measured with a value which is known as ORAC. It is the unit which measures the capability of and antioxidant to neutralize the Free Radicals.
- **Higher the ORAC value, stronger is the Antioxidant capacity of a particular antioxidant or food.**
- To further simplify, the way liquid is measured in liters and solid is measured in grams or kilograms, the antioxidant capacity of an antioxidant or food is measured in ORAC.  
**SUPRIMO immunity booster** has ORAC value 3500+ which is high ORAC Value for daily intake of an Antioxidant
- **SUPRIMO immunity booster** is a unique dietary supplement that contains powerful antioxidants
